COMPLEMENTING ACTIVITIES

We were in Sighetu Marmatiei for a weekend to work with local young people from the city! During this weekend, we approached the themes of climate change and youth participation. After identifying the problems in their communities, the young people came up with causes and solutions for these problems and presented them to a local authority figure. We had also a simulation with them where they would choose their roles at a local council and experience together what could be a session in this council.

We had the same activity in viseu de sus two weeks after, with different young people with different opinions and dealing with different problems.

It was extremely fun for us to do these activities and we were always sad when these weekends ended. We are proud of these young people and wish them a lot of luck for the future!

YMCA'S BIRTHDAY

We are pleased to announce the 177th birthday of YMCA. For all these years YMCA has had an important role in the lives of many people, especially young people! We hope to continue empowering them because we believe in the youth!

SPANISH INTERNATIONAL EVENT

On the 2nd of June the "Spanish crew" of our project, Marina and Cristian, presented their country in a fun and engaging way. The workshop was held at Baia Mare's youth center. They talked about their country and shared how they felt their culture locally (where they live). Through games and questions, we think everyone learned a lot. In the end there was tortilla and gazpacho for everyone!

TREASURE HUNT IN CAVNIC

We have been two times in Cavnica to engage the kids from the high-school and middle-school in different treasure hunts. Both groups were happy to run around Cavnica taking the challenge very seriously. It was very special for us to finally meet the kids after so many online activities with them.

SCOALA VASILE ALECSANDRI BAIA MARE

On the 3rd of June we went to Scoala Vasile Alecsandri in Baia Mare to do a big activity with many children. Cristian presented a scout game in which the kids were in a circle chasing or protecting a ball in pairs and also we were drawing on the floor with chalk all together!
